i jointly with Vienna University of Natural Resources and Life Sciences

ii Please note: ACIB is a research institution with its own legal entity. However, it is closely associated to its scientific partners *i.e.* Universities with which ACIB has framework contracts to assess their resources (personnel, equipment, facilities). The owners of ACIB are with 36% the University of Natural Resources and Applied Life Sciences; 36% the Graz University of Technology; 12% the Karl-Franzens-University, Graz; 8% the University of Innsbruck and 8% Joanneum Research. Several ACIB key researchers are therefore also employed at a University – in case of Prof. Gabriele Berg she is also head of the Institute of Environmental Biotechnology at Graz University of Technology.
